INTERNSHIP EXPERIENCE

Trainee	May 2023 - Jun 2023
LTIMindtree	*Remote*

- Successfully completed a comprehensive two-month internship / training program provided by a leading company, focusing on Core Java and SQL.
- Developed a solid foundation in Core Java concepts, including object-oriented programming, data structures, JDBC, File IO, and exception handling. Training also consisted of Front-end development and Business Communication.
- Achieved an outstanding 86% score in the final assessment, surpassing over half of the total interns who participated in the program.

PERSONAL PROJECT

StudyNotion [(view)](#)

- StudyNotion is an Edtech platform that I developed as a full-stack project using the MERN stack. It serves as a dynamic ecosystem where instructors can seamlessly publish their courses, and students can access and purchase these courses.
- Designed a modern and responsive user interface using React, with elegant styling powered by Tailwind CSS for a polished user experience. Utilized Node.js and Express.js to build a robust and secure server to manage course content, user data, and authentication. Employed MongoDB as the database to efficiently store and manage course-related data, ensuring scalability and performance.
- Integrated Cloudinary for seamless storage and retrieval of media assets, ensuring a smooth multimedia experience for users. Implemented JWT authentication to enhance security and provide a seamless login and registration process.
- Developed a feature that enables students to track their course progress, ensuring a personalized and engaging learning journey. Created a comprehensive statistics dashboard for instructors, empowering them to monitor the performance of their courses, student engagement, and revenue.

CERTIFICATES

- Core Java Online certification course from Internshala [certificate](#)
- C++ certification course from Info Planet [certificate](#)
- Ready, Set, Agile! Virtual Experience Program [certificate](#)
